Education

University of Muhammadiyah
Malang – Malang, Indonesia

Bachelor's Degree in Informatics
Engineering | 2015 – 2019

Skills

HTML, CSS – Advanced

JavaScript – Intermediate

React, TailwindCSS – Intermediate

Language

Indonesia – Native

English – B1 (Intermediate)

Projects / Experience

E-Commerce Frontend – React, Material UI

Built using React TypeScript, Tailwind CSS, and Redux Toolkit for state management.

Key Features :

- Authentication: Simple login & sign-up.
- Product Catalog: Filter products by category.
- Shopping Cart: Add and manage items in the cart.
- Data Handling: Utilized dummy JSON as the product data source.

This project demonstrates my ability to :

- Develop modern front-end applications with React + TypeScript.
- Efficiently manage global state with Redux Toolkit.
- Implement responsive UI using Tailwind CSS.
- Build complete user flows from authentication to product checkout.
